## What is TEDxUTD?

TED is a nonprofit devoted to spreading ideas to change attitudes, lives and, ultimately, the world. Our event is called TEDxUTD, where x = independently organized TED event. At our TEDxUTD, TEDTalks video and live speakers will combine to spark deep discussion and connection. TEDxUTD shares the mission of spreading ideas to The University of Texas at Dallas and our local community.

As an organization at University of Texas at Dallas, we sponsor two types of events year round; salons and our main conference. Our monthly salons provide local professors and students a platform to share ideas and invoke points of discussion in our community.

At the annual conference, we showcase local innovators to spark further progress and creativity to promote the progression of the community. TEDxUTD could not exist without our generous sponsors who share our mission to spread ideas.
